TAHPERD is proceeding with all scheduled events as planned.

The safety of our leadership team and members is TAHPERD’s first priority. Although, the immediate health risk from COVID-19 to the general public is believed to be low, we recognize that every situation is different; members must decide for themselves what actions are safest for travel.

TAHPERD is:

- Carefully following the guidance of the World Health Organization (WHO) and the Centers for Disease Control and Prevention (CDC).
- Adhering to the decisions of the hosting cities.
- Adhering to the travel restrictions and guidance of the U.S. Department of State.
- Communicating with official hotels about their cleaning protocols and recommending they review the CDC and the WHO guidance.
- Encouraging members to follow the guidance of the CDC for everyday preventive actions to help prevent the spread of respiratory viruses.
  - Wash hands often with soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing, or sneezing.
  - If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty.
  - Avoid touching eyes, nose, and mouth with unwashed hands.
  - Avoid close contact with people who are sick.
  - Stay home when sick.
  - Cover a cough or sneeze with a tissue, then throw the tissue in the trash.
  - Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipe.
